Hey everyone. Hope all is well and you are enjoying the summer. As it comes to an end, the beginning of legislation begins. We are working on a game plan for this year. Hopefully we will have some progress this year and get these bills moving forward.

I want to send a apology to district 7 for the cancelation of a meeting on August 19th. I wasn't able to make the meeting due to testing positive for Covid. So far it's been nothing more than miserable head cold type symptoms. I'm ready to get back up and going.

Don't forget that September 15 ,16, and 17th is BIG Roy's Memorial weekend down in the dirty south below the Macon Dixon line. See the flyer all over FB for more info.

Everyone stay safe hope to see ya in the near future....

FROM THE

# SGT AT ARMS

This year, instead of fighting catastrophic weather while riding from the coast to South Dakota, I took a few days off work and rode up into the North Georgia Mountains. What a wonderful time I had. Here on the coast, it's all flatlands and we only have 3 directions to explore. I joke that I now get nosebleeds when I ride over a speed bump. It was so refreshing to wind around curves, cresting the peak and not knowing which direction the other side would take me. Back in Maine, it always seemed that the crest of a hill always had a turn, and the little zing of anticipation was part of the thrill of the ride. The weather was perfect up in those North Georgia hills. While on my mini-vacation, I had lunch with some friends and we explored a cemetery that held many unknown people, unknown confederate soldiers as well. Some original markers were small stone obelisks at the head and foot of a grave. Others were recently placed metal disks with "unknown" stamped onto them.

I also went horseback riding out on a mountainous trail. It seems like forever since I last rode a horse. I don't know why it seemed so easy this time. Maybe the last 40 years in the saddle of one or another of my sleds, or maybe that old muscle memory re-engaged. Or maybe both. I had so much fun, I went again the next day before I headed back south... the average temperature from Lumpkin County to Glynn County averaged about 98 degrees.

We just had our quarterly in-person board meeting. I am not sure how any other attendees felt, but I thought it went fantastically well. We addressed some important internal information sharing issues and hopefully, the districts will have critical ABATE of Georgia mission information at each district meeting.

The meeting was held at the Macon VFW Post #658. They were great hosts, and the food was all homemade. Kudos to the Chef who even made his own BBQ sauce that was sweet and spicy and tangy all at once.

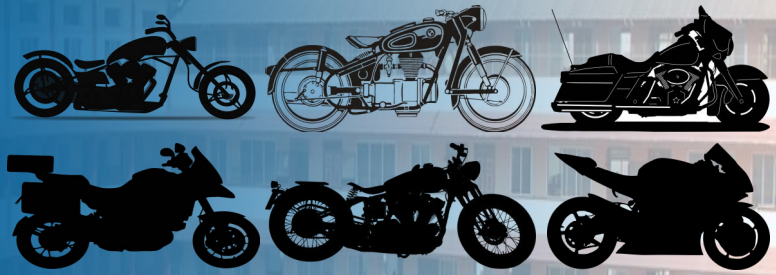

Finally, the Motorcycle Riders Foundation Meeting of the Minds is coming up fast. I will be attending, as will others from ABATE GA. Here's the link to the MRF website for their action alerts. Some of the alerts have imbedded links to send an automatic email to your Congressperson to request they support or oppose legislation that is important to motorcyclists.

# Motorcycle Riders Foundation

## Motorcycle Riders Foundation meets with NHTSA

At the end of July, key Motorcycle Riders Foundation (MRF) board members held a meeting with half a dozen officials at the National Highway Traffic Safety Administration (NHTSA) regarding autonomous vehicles. It was a frustrating meeting.

At the outset, NHTSA officials promised a safety report, likely to appear in the fall, which they say will shed light on how this new technology interacts with motorcycles. While they seemed optimistic about what the study will show, we remain concerned. One reason for the concern is what we believe to be a lack of urgency from the federal government to set guidelines and legal standards.

The MRF participants stressed a few key points. First, there is clearly a lack of knowledge by consumers about what these products can and cannot do. It seems all too often that misleading promotional material gives drivers a false sense of what these cars are capable of. While officials at NHTSA may know what the cars are designed to do, it seems obvious many of the people behind the wheel of these cars do not.

We also pointed out the growing number of crashes that involve Teslas and motorcycles. Earlier this summer, former NHTSA senior safety adviser, Missy Cummings, told the Washington Post, "It's very dangerous for motorcycles to be around Teslas." Disappointingly, NHTSA refused to comment on this, citing an open investigation into those crashes.

On a positive note, a member of Congressman Tim Walberg's staff attended the meeting and asked key questions about the rollout of the next level in autonomous vehicles. Congressional staff being present sends a clear message to the bureaucrats at NHTSA that at least some on Capitol Hill are worried about motorcyclists.

We are fast approaching a turning point in the development of autonomous vehicles. Currently, most of the autonomous vehicles on the road are "Level 2." This means "the driver is fully responsible for driving the vehicle while the system provides continuous assistance with both acceleration/braking and steering." However, a huge jump is made with "Level 3." At this stage "the system handles all aspects of driving while the driver remains available to take over driving if the system can no longer operate."

Despite our frustration with the lack of action on this topic, the MRF remains in the fight. Meetings like this, while disappointing, keep us in their face. We are committing to holding manufacturers and regulators accountable for the safety of ALL roadway users.

See the next page for NHTSA classification levels for automation.

# LEGISLATIVE

Sept State legislative report.

We are working mainly on an anti profiling bill for the next session. I have a sponsor for it Dewey McClain house dist 109 in Gwinnett co. I will be meeting with him next month and plan to pre-file the bill in November. We are using the Idaho bill passed in 2020 as a guide. I am using as a guide the congressional resolution passed by congress that MRF did. it states the following, ( To prevent profiling which means the illegal use of the fact that a person rides a motorcycle or wears motorcycle related apparel as a factor to stop and Question and take enforcement action). If we want this to pass we Must commit to contacting our Georgia State representatives. we will produce a letter to send when we have the bill number.

Your representatives district is on your voters card. We are working to get the clubs involved, this is a top issue for them and us. Our representatives need to know this is what we want!!! In congress HR1435 became law it amended the clean air act to prevent the elimination of internal combustion engines. HR 906, the right to repair bill is working through congress.

Things are moving in Abate of Georgia if we all do our part the best is yet to come !!!

### The One Minute EDUCATOR

With the cooler weather upon us, here are a few reminders:

- Be prepared (keep an extra layer or some heated gear with you)
- Ride unaffected by alcohol or drugs (you need all of your senses to stay safe)
- Maintain 360 degree awareness (head on a swivel)
- Enter intersections and curves with caution (don't assume you have the right of way ever!)
- Practice emergency braking and swerving (know how your bike handles)
- Refresh you skills and knowledge regularly (take a formal MSF course)

Stay safe and see you on the road!

**District 6** meets the first Thursday of the month at **Partners II Pizza, 48 Market Square Rd, Newnan, GA 30265.**

Our meetings begin at 7pm prompt and will end by 8pm. We encourage folks to come early to grab some food and have some social time. Folks start arriving as early as 6 to get the chow and chat prior to the meeting. The restaurant closes at 8pm, so meetings are kept short! Our numbers are few, hoping to grow now that we show as an active district in the newsletter!

We have not put on any events this year. We are working hard on getting the word out to the motorcycling community to join ABATE hoping the new tri-fold will give us some fire-power here!
